MEMORANDUM FOR: Deputy Director of Training

Rod:

In connection with my substituting for Mr. Bannerman at the CT Intelligence Orientation Course, which constitutes my first appearance at something run by the Intelligence School, a matter surfaced which I call to your attention as warranting a look-see by OTR top management. The Intelligence School people sent over a guest speaker data card for me to complete. This indicated that such information is not pooled on an OTR-wide basis since at least the Support School has had the same "dope" on me for some time. I wonder how many other people have been requested to fill out separate guest speaker data cards for each of the Schools. My thought is obvious. Wouldn't there be an improvement in your over-all efficiency by pooling this information and improvement with your relationships with the people who are asked to speak repeatedly by not requiring their taking the trouble to substitute for some kind of OTR pooling arrangement?

Please don't cause a flap on this note from me. Perhaps you could initiate a query independently on the pooling or non-pooling of data with no reference to the fact that I have said anything at all to you.
